# △CLARA™

The AI screening assistant that puts the best match, highest potential candidates in front of teams faster.
Hiring teams face sky-high expectations and record applicant volumes, all while having fewer resources and facing more scrutiny. CLARA is a customizable candidate screening assistant that helps busy teams objectively identify candidate skills and potential — in record time.
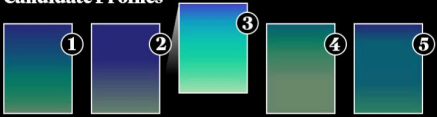

Why CLARA?

Skills · Critical Thinking · Education · Experience · Learning Agility · Distance Traveled

Find hidden talent
Use deep AI evaluation to reveal talent that traditional resume parsing, keyword matching, and manual reviews miss.

Elevate the evaluation process
Improve the hiring experience for applicants, recruiters, and hiring managers by creating an even playing field where all candidates are evaluated using the same standards.

Save your team time
Reduce the need for manual resume reviews and sorting with customized, ethically applied AI screening that helps your team do your best work, faster.

Candidate Profiles ① ② ③ ④ ⑤

Reduce bias
Get everyone focused on what's important — skills, abilities, and value-added experience — by redacting candidate information that increases risk of bias.

Candidate Match Score
